📢 Tenging

The concept of the design is to deliver a sharp and modern design, with a crisp and modern color-palette, focusing on strong colors with the contrasting pink to emphasize some things or call attention to specific details in the text. We want the user to feel straight away that he hasn't wandered into some dusty old "computer machine" operations, but has found a partner that is ahead of the curve already and he too can let the powerful current take his business to new heights.

Icons

A shortened version for Apps,documents, engagement channelbranding these icons can be used. Avoid cropping corners and placingon background where colors merge.

Colour

Use this as our main brand identity. It should never be reduced to cutedges of Tenging or the triangle logoand should always be uploaded or sent to partners in high resolution.

Monochrome

Monochrome logo used on dark backgrounds or if color using is not possible for any reason.

Inverted

Preffered safe area

The safe area is used to prevent from placing other elements near the logo that may distort the perception of the sigh. It highly recommen to keep background in safe area clear, filled by solid color or extremally blured.

Body text

For paragraph text, including sub-headlines **Roboto** is the primary and main font - it should be used across all channels and communication methods. It is subtle but very clear and eye-catching, delivering a message of trust to our readers.
